TO WEST VALLEY LOW LEVEL WASTE BURIAL CUSTOMERS, ASDA & NRC

Please be advised that as of 4 p.m. today, March 11, 1975 Nuclear Fuel Services, Inc. (NFS) is suspending the low level waste burial operations at West Valley indefinitely. The suspension is the result of the need to obtain clarification from state regulatory authorities with respect to present and future operations of the low level waste burial area.

As you know, the low level waste burial operations have been conducted for the benefit of the citizens of the State of New York. Until the cognizant regulatory authorities of the State of New York make their determination of whether, and under what conditions, the operations of the waste burial site are in the best interests of the citizens of the State of New York, NFS is unable to continue operations of the facility.

We will advise you as soon as possible when we learn of any change in this position.
